The ABCs and the Ls for talking climate with kids

BY DR. LISE VAN SUSTEREN

AGE

Speak about climate change in age appropriate ways.

BEHAVIORS

What are they like...inside kids or outside kids? Noisy joiners or quiet independents?

CONDITIONS

What type of community do they live in? How has it impacted by climate change & what impacts are still to come?

LISTEN

Listen to kids-their questions,

concerns, stories, and ideas about climate change.

LEARN

Learn from them and educate yourself.

LEVERAGE

Help them find ways to take meaningful action as individuals and as a family.
